

Results-driven Junior Frontend Developer, Junior Fullstack Developer, and Web Developer with a strong foundation in modern web technologies, UI/UX principles, and responsive design. Proficient in HTML, CSS, JavaScript, TypeScript, React, Next.js, Vue, and Node.js, with hands-on experience in building dynamic and scalable web applications. Skilled in API integration, component-based architecture, and optimizing performance for seamless user experiences. Adept at collaborating with cross-functional teams, implementing secure authentication protocols, and utilizing version control systems like Git for efficient development workflows. Passionate about writing clean, maintainable code and continuously expanding technical expertise in emerging web technologies.

Areas of Expertise

- Experienced in building fully responsive and mobile-friendly applications using HTML, CSS, and JavaScript frameworks, ensuring optimal user experiences across all devices.
- Skilled in React, Next.js, and Vue.js for creating dynamic, component-based applications with efficient state management and reusable UI components.
- Knowledgeable in Node.js and Express, capable of designing RESTful APIs, handling server-side logic, and integrating external APIs for data fetching and authentication.
- Proficient in using Git, GitHub, and GitLab for version control, managing repositories, handling branches, and collaborating effectively in Agile development teams.
- Experienced in optimizing web performance through lazy loading, code splitting, caching strategies, and reducing unnecessary re-renders in frontend applications.

Professional Experience

Fullstack Developer - Intern

Nibiru Software AB

Jan 2025 - Jul 2025

Developed the company's new homepage by implementing modern front-end and back-end solutions, optimizing performance, and ensuring seamless user interaction. Addressed backend challenges, including email configuration, Sanity setup for content management, Jest testing for quality assurance, and deployment process monitoring. Designed an intuitive and visually appealing UI dashboard using Material-UI, integrating API backend connections for real-time data synchronization and enhancing user experience.

Key Achievements:

- Implemented a secure authentication and authorization system with access tokens, ensuring data protection and a streamlined login experience.
- Explored and applied advanced backend development techniques using Next.js to improve scalability, maintainability, and performance.
- Automated deployment pipelines to enhance CI/CD processes, reducing manual intervention and improving development efficiency.

Frontend Developer - Intern

Parking Time AB

Sep 2024 - Dec 2024

Developed a fully redesigned and optimized homepage, ensuring a modern, user-friendly experience while resolving backend functionality issues to improve overall performance. Configured email services, enabling seamless communication and automated notifications by integrating reliable backend solutions. Implemented Jest testing frameworks to enhance code reliability, ensuring smooth functionality and reducing potential errors before deployment.

Key Achievements

- Designed and developed interactive UI dashboards using Material-UI, improving user navigation and accessibility across the platform.
- Managed API integrations, establishing efficient data flow between the front-end and back-end, optimizing response times and reducing latency.
- Strengthened security by implementing secure access token handling mechanisms, preventing unauthorized access and enhancing user authentication processes.

Restaurant Manager

Barrels Burgers & Beers (Chinzo Söder AB)

Jan 2021 - Jun 2023

Managed daily restaurant operations by overseeing staff schedules, monitoring service quality, and ensuring a seamless dining experience for customers. Supervised order management processes, coordinating with kitchen staff and suppliers to maintain inventory levels and minimize waste. Oversaw customer bookings, ensuring smooth table turnover and enhancing the overall guest experience through effective reservation management.

Key Achievements:

- Maintained accurate financial records, preparing sales reports and monitoring revenue to optimize profitability.
- Worked closely with the accounting team to track expenses, manage payroll, and ensure timely vendor payments.
- Trained and mentored new staff members, fostering a productive work environment and improving service efficiency.

Restaurant Manager

Classic Pizza (Classic Pizza AB)

Dec 2018 - Apr 2020

Led the hiring process by recruiting, interviewing, and selecting qualified candidates, ensuring a strong and motivated team. Provided comprehensive training for new employees, focusing on customer service excellence, operational efficiency, and food safety compliance.

**Key Achievements:**

- Managed staff performance through regular evaluations, constructive feedback, and ongoing coaching to maintain high service standards.
- Maintained direct communication with accountants and ownership to provide detailed financial reports, ensuring transparency in sales, expenses, and profitability.
- Assisted in budgeting and cost control by analyzing financial data, optimizing expenses, and identifying areas for revenue growth.

**Tax Lawyer - Intern**

DLA Piper Jun 2017 - Aug 2017

Assisted senior lawyers in researching and analyzing national and international tax regulations, ensuring compliance with evolving legal standards.

**Key Achievements:**

- Conducted detailed reviews of corporate financial statements to identify tax-saving opportunities and potential compliance risks.
- Supported the preparation of transfer pricing documentation, ensuring proper reporting and adherence to international tax laws.
- Collaborated with legal teams on group restructuring cases, analyzing tax implications and assisting in structuring tax-efficient corporate frameworks.

**Infantry Soldier & Team Leader**

Italian Army (1st Sardinia Regiment) Sep 2008 - Aug 2016

Led infantry teams in executing operational tasks and strategic missions, ensuring unit cohesion and mission success.

**Key Achievements:**

- Provided tactical guidance during field operations, assessing situations in real time to make informed decisions under pressure.
- Supervised and trained new recruits, equipping them with essential combat skills, weapon handling techniques, and survival strategies.

**Technical Skills**

**Frontend Development:** HTML, CSS, JavaScript, TypeScript, EJS | React, Next.js, Vue, Nuxt.js | jQuery

**Styling:** Tailwind, SASS, Styled Components, Material-UI, Next-UI, Nuxt-UI, Framer Motion, Locomotive Scroll

**Backend Development:** Node.js, Express | Database Design: PostgreSQL, MongoDB, DynamoDB, Supabase | MERN Stack

**DevOps & Tools:** GIT, Docker, AWS, GitHub, GitLab | CI/CD, Cloud Computing

**Testing:** Mocha, Chai, Jest

**Blockchain Development:** Solidity, Web3.js, Ethers.js, Ganache, Infura, Metamask, Hardhat.js

**AI / ML:** TensorFlow.js

**Project Management & Other Tools:** Agile Methodology (Scrum Master, Project Manager experience) | Linear, Jira, Microsoft 365 | API Development: Postman | Headless CMS: Sanity, Hygraph

**Education**

**Futuregames AB | Frontend/App Developer | Sep 2023 - June 2025**

2-year course covering **Web Development, Agile Methodologies, UX/UI, Git, and Cloud Technologies.**

Gained experience as **Scrum Master** and **Project Manager** in Agile teams.

**Certifications**

**AWS Cloud Practitioner** (5502bddfb1554ba7a188370d8d257310)

**Google Fundamentals of Digital Marketing** (ID: 346998936)

**Languages**

**English** (Fluent) | **Swedish** (Fluent) | **Italian** (Native)

**References**

**Johan E. Bengtson | CTO, Parking Time AB**

"Davide is a dedicated developer who delivered significant improvements to our web services. He excels in front-end functionality and works well in collaborative environments."

**Rob Chamberlain | Head Teacher, Futuregames AB**

"Davide is an extremely competent developer and a natural leader. His passion for learning, professionalism, and technical expertise make him a valuable asset to any team."
